### **Libra; Scorpio; Sagittarius; Capricorn; Aquarius; Pisces**

#### **Universal Level – Development of Self as part of the Oneness – Universality**

**Libra** ♎ – Keywords: I Balance I Harmonize

Libra is the first sign in the polarity of signs that helps us deal with the oneness of all things. Libra deals with relationships, cooperation, balance and harmony. The “me” consciousness needs to become the “we” consciousness. As a Cardinal Air sign Libra initiates the mental development of the universality or oneness. It deals with harmonizing relationships by balancing the needs and desires of both partners. The soul growth in Libra is achieved by harmonizing your own needs and desires with those of the relationship while respecting the individuality of each partner.

**Scorpio** ♏ - Keywords are: I Desire I Regenerate

Scorpio deals with transformation, death and rebirth, regeneration, sex and passion. As a fixed water sign it sustains and intensifies our emotions and feelings initiated in Cancer until they become such intense desires that we must either succumb to them, (degenerate), or cleanse and correct them raising them to a higher spiritual level (regenerate). The death and rebirth of Scorpio is the death of strictly material desires and rebirth of spiritual desires.

**Sagittarius** ♐- Keywords: I Aspire I Expand

Sagittarius is about religion, philosophy, ancient wisdom and our ideals. Sagittarius is the sign of the super-conscious mind. It is intuitive, optimistic, and understanding. As a mutable fire sign it modifies and elevates the “self” which was initiated in Aries and developed in Leo. The soul growth is to raise our aspirations, our ideals, our philosophy to the spiritual level and break out of the trap of materialism.

## Soul Astrology: The Second Six Signs

**Capricorn** ♄ - Keywords: I Use I Achieve

Capricorn brings strength, ambition, responsibility, patience, persistence and a strong desire to achieve. It is practical and down to earth. It is a cardinal earth sign and here we begin to manifest the foundation of our universality through the physical self. The soul growth in Capricorn is using these qualities to achieve the goals of the soul and not just material goals.

**Aquarius** ♒ - Keywords: I Know I Am Intuitive

Aquarius is about brotherhood. It is altruistic, humanitarian, and intuitive. As the fixed air sign it consolidates and intensifies the mental development of the universality or oneness. As the polarity sign of Leo it urges us to use the self, and the projection of the self and the will in an altruistic manner. The soul growth in this sign is the use our creative self-expression for the benefit of those in our sphere of influence.

**Pisces** ♷ - Keywords: I Believe I Reveal

Pisces is a sensitive, emotional and spiritual sign. It is compassionate and self-sacrificing. The symbol of Pisces is two fish tied together swimming in opposite directions. One swimming upstream represents the soul and the other swimming downstream represents the personality. Since they are tied together one must be dominant and the other submissive if they are to go anywhere. Either the soul captures the personality, which then becomes the servant or the soul is made captive by the personality. This can bring deep suffering to the personality. Service to others breaks the suffering. Pisces is a mutable water sign giving it the urge to modify or adjust our emotions and feelings. The soul growth here is to elevate them beyond the physical to the spiritual.
